

## What I was Told about Roswell

Roswell was human technology. Then they began the brilliant governmental method they came up with, first saying there are 'saucers', then denying there are 'saucers', then 'saying there are saucers' in an endless loop. While continuing to do human experimentation projects and other nastiness in conjunction with the Nazi refugees that had worked for Goebbels and Mengele, some of which were later installed into the CIA in 1953.

I won't argue or debate about it.

Am I saying that there are no UFOs?

Not at all. I am a CE5 Experiencer.

What is behind 'UFOs' has been here with us for more than 40,000 years.
