

## The Absurdity of Enlightenment

It's just SILLY, that 'enlightenment' only lasts 10 to the -10 seconds

(how long the fractured mind can come back together to be the 'primordial mind' before it destabilizes and fractures again.

No wonder people avoid it so much.

It may be a cosmic orgasm, but it's the last moment you exist.

It's like hitchhikers' guide or something.

When I realized that THIS was the entire reason I came back from the dead, to learn this,

It felt like 2 sledgehammers hitting me in the head, and I felt something heal, And I wanted to cry, and I wanted to gibber.

Now these words will be 'invisible' to 99.9% of all living people.

I'm not saying that it's 'everyone's thing' --- it's not.

That's the 'white crystal prison' speaking there, that one bit of us can just wave Their hand and 'fix' everyone else.

There are a trillion onramps to 'this' and I think that 'this' is still the offramp, But everyone has to do the work and to show their math.

And it only lasts 10 to the -10 seconds.

## The Absurdity of Enlightenment

Might as well enjoy ourselves if we can.

The 'Pleroma' is so uppity... The ontological shock of realizing the 'dual nature' of the 'prison' was a huge shock for me personally.
