

Understanding The Faerie – UFO Encounter Archetype

From what I see, Fae live in the world of the dead and are descended from 'dream substance' that humans eject when they die. Humans being 'cosmic mitochondria' you know (citizens of worlds both 'above and below'. Natural transformers.

Anyway.

it used to be in Europe especially you'd see 'UFO encounters' that just SCREAM LOUDLY actual 'Faerie encounters', dressed up as 'UFO' encounters, as 'UFOs' are somewhat respectable, while the Faerie faith is being foolishly suppressed'.

Faeries 'are what they eat'. So, moderns are often cold war-like nuke bomb waving assholes, so that's what we see.

But in earlier times, and better places, even if you see a 'UFO'

It is in fact a Faerie encounter under the hood.

Here's some elements:

- 1) Food is given.
- 2) Food is received.
- 3) Animals are being helped.
- 4) Kindness is shown in some manner.
- 5) Mushrooms are nearby.
- 6) The 'craft' is a faerie altar/gateway (2 concave discs put together).
- 7) Now if the 'alien' is gray in skin color, that's a 'clue'.
- 8) Don't be surprised if the 'aliens' 'natural language' is pre-Indo-European or later-pre-Indo-European with pictish dialects thrown in.
- 9) Don't be surprised if one or more of the experiencers have a specific mitochondrial DNA marker, that is uncommon in the general populace, but this is optional.
